

## News Release

Date: 29 June 2007

### Bespak celebrates Apprentice of the Year Award

Bespak, a leader in medical devices for inhaled drug delivery and anaesthesia, is proud to announce that Tony Mallett, one of the company's apprentices, was named winner of the Apprentice or Trainee of the Year category at the recent Plastics Industry Awards 2007.

Tony, who was runner-up in the category in 2006, received his award in recognition of his enthusiasm and commitment to the company. The judges considered Tony to be "an exemplary model of an engineering apprentice, not only in terms of academic and vocational attainments, but also in personality, behaviour and disposition."

Barry Munson, Technical Support Manager at Bespak, said of Tony's achievement "This is a well deserved award for Tony who is a true inspiration to our business. His approach and interest in the industry has set a high standard for all future apprentices at Bespak."

Bespak was also a finalist in The Processor of the Year category, acknowledging the company's skills and abilities as a manufacturer and one of the UK leaders in its field.

The Plastics Industry Awards are organised annually by Plastics and Rubber Weekly magazine.

## **Notes for editors**
